

Gianluca Picariello - CV English

Gianluca Picariello was born in Avellino, Italy, on July 13rd 1973.

He was graduated from the University of Salerno, Italy, College of Chemistry on July 16th 1998, final mark 110/110.

In 2013 he was PhD graduated (Food Science and Technology) from the University "Federico II" of Naples.

Between July 2000 and December 2007 he was in charge of "Temporary Research Scientist" (ex art. 23 of CNR) on the staff at the Institute of Food Sciences (ISA), division of CNR in Avellino.

Since January 2nd 2008 he is in charge of Full Researcher at ISA-CNR (Food Sciences and Technology, subject Agr. 15) of the Italian CNR.

Between January and November 1999 he had a research fellowship recipient from INFN (National Institute for the Physics of Matter), with focus on the characterization of edible oils and fats by high resolution NMR.

He has been engaged as a participant or as principal investigator in several research projects founded by Italian Ministries MIUR, MIPAF or Campania Region.

He has been been visiting scientist:

- ✓ at the Department of Biochemistry and Molecular Biology of University of Southern Denmark, Odense (Denmark). Host: Prof. Peter Roepstorff (March-April 2006)
- ✓ at the National Center for Glycomics and Glycoproteomics, University of Indiana, Bloomington, USA. Host: Prof. Milos Novotny (June-July 2008).
- ✓ at the CERELA (Reference Center for lactic acid bacteria) located in San Miguel de Tucuman (Argentina), as a coordinator of a bilateral international research agreement between CNR and CONICET (Argentina). Host: Drs. Elvira Maria Hebert (November 2011)
- ✓ CIAL (Instituto de Investigación en Ciencias de la Alimentación) del CSIC (Madrid) –Spain Host: Prof. Isidra Recio (March-April 2014).

He is author/co-author of more than 90 peer-reviewed articles international journals with impact factor and 7 international book chapters with ISBN, as well as publications in Italian journals specialized on food science and technology. He is also co-author of more than 70 abstract or proceedings of national and international workshops.

H-index: 21 (Scopus - October 2016).

He was qualified as associated professor (call 2012) in Analytical Chemistry (scientific subject category 03/A1).

He has been speaker in international congresses of proteomics and lipidomics applied to food science and technology.

He collaborates with the teaching activity of the University of Naples "Federico II"; in 2009/2010 he has been lecturer for the class of Food Science and Technology (40 hours) in the Bachelor Graduation Course in Dietetics.

Since 2012, he is lecturer for the International Master Erasmus-Mundus FIPDes (Food Innovation and Product design) at University of Naples "Federico II".

He has been co-relator or supervisor of many graduation thesis and one PhD thesis in Food Science and Technology.

He carries out activity as *Referee* for many international journals such as *Food Chemistry*, *Journal of the Agricultural and Food Chemistry*, *Food Research International*, *Molecular Nutrition & Food Research*, *Journal of Proteomics*, focused on food science, technology and analysis.

Since 2014 he is Associated Editor of *Peptidomics* – De Gruyter Editor and since 2016 of *Food Research International* (Elsevier).
